ABOUT US

Dongguan Tongli Timber Products Co., Ltd. was established in 1999. It is a modern large-scale enterprise that specializes in manufacturing and selling high quality fancy plywood/commercial plywood/UV painted wood veneer panels/natural veneers/dyed veneers/reconstituted veneers/veneer edge banding strips. With more than 20 senior management personnel, 100 senior technical staff and factory facilities covering over 20,000 square meters, we have annual output of over 100,000 cubic meters of our products.

Our wooden products are widely used as production materials for furniture/doors/wall panels/cabinets, etc. They are generally suitable for furniture factories/door factories/whole-house customization factories/ cabinet production enterprises/hotel construction and decoration/real estate decoration, and so on. Our wooden products have been exported to overseas markets, such as Thailand, Malaysia, Philippines, Indonesia, India, Nigeria, etc. The strategic goal of our company is to build a brand factory in the Chinese wood industry and become the most influential enterprise of production and distribution for high-end wooden veneer boards in the world. We will definitely go further and higher.

The image features a light gray background with several stacks of light-colored wooden planks and plywood sheets. In the top left, a few planks are stacked. In the top right, a stack of planks is shown from a different angle. In the bottom left, a thick stack of plywood sheets is visible. In the bottom right, another stack of plywood sheets is shown, with some faint markings on the side. The word "THANKS" is centered in the middle of the image in a large, white, sans-serif font.

THANKS

Thank you for watching
